

Customer to Customer

Welcome to Machias Savings Bank's new online banking experience! Transferring funds to fellow MSB Online Banking Customers is hassle free and simple with Customer to Customer!

Transferring Funds:

1. In the menu on the left, click Payments and Transfers.
2. Next, select Customer to Customer.
3. Collect the following information from the desired recipient of the transfer:
 - ▲ Are you an Online Banking Customer of Machias Savings Bank?
 - ▲ What is your Email Address?
 - ▲ What are the last 4 digits of the account you would like funds deposited in to?
4. Click either Single Transfer or Link Account. Single transfer allows you to make a one-time transaction and does not save the recipient's information. Linking the account will allow this information to be saved for future transfers.

ACCOUNT TO ACCOUNT TRANSFER

You can choose to make a single transfer to another account holder or link another account holder's account (for deposit purposes only) to your online login. If you plan to make more than one transfer to the other account holder, or if you need to create a recurring or future-dated transfer, linking the account is required.

[Single Transfer](#) [Link Account](#)

5. Enter the From Account and the Amount. A Description can be added if desired to send to the recipient. Click Submit.

TRANSFER FUNDS TO ANOTHER ACCOUNT

Make a one-time transfer to another customer's account.

Enter Your Account Information

From Account *

Amount * \$ 5.00 Description Thanks for Lunch!

Enter Recipient Customer Account Information

Recipient Email Address * customerservice@machiassavings.com Last 4 Digits of Account # * 1234

[Back](#) [Submit](#) * - Indicates required field

6. Once the transaction has been submitted, it can be viewed in the Activity Center.
