

Merchant Capture

Troubleshooting Merchant Capture Scanner if it does not turn on after your Online Banking upgrade.

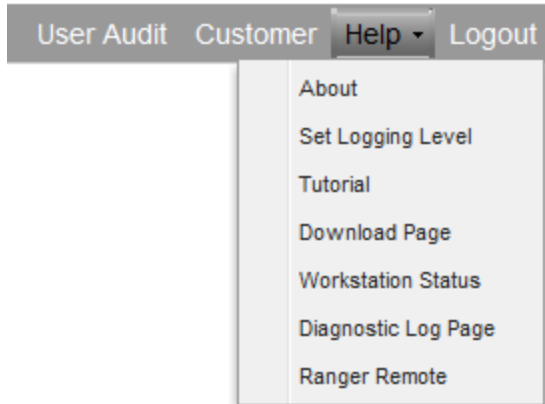

Troubleshooting Steps:

1. Within Online banking click on Merchant Capture

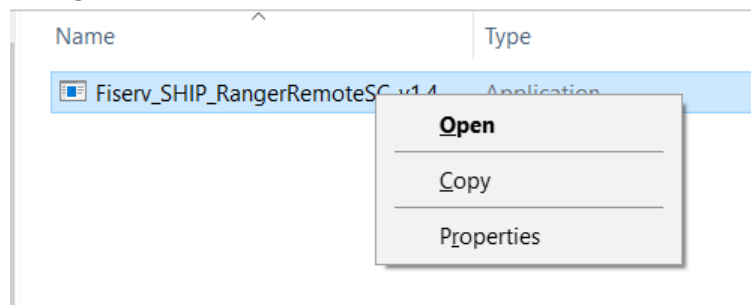

2. A new window will appear displaying Merchant Capture
3. Navigate to the Help Menu at the top right of the screen and select "Download Page":

Merchant Capture

4. On the Download Page, click install for the “RangerRemote for Chrome, Firefox, and Edge” driver.
5. Save the file and then navigate to its folder location.
6. Double click or right click to open the File.

7. If you are asked if you would like to allow this program to make changes to your computer, click Yes.
8. The Fiserv Installation box will pop up. Click *Install*.

9. When the installation is complete, click *Exit*.

10. Once this has been complete, restart your browser and login into Online Banking and click Merchant capture. If you hear the scanner turn on when the Merchant Capture screen loads your installation was successful.

- a. If the scanner does not load, please clear your browsing history, cache and cookies (instruction below).
